DETAILED ACTION

Ex parte Quayle

1. This application is in condition for allowance except for the following formal matters:

Drawings

2. The drawings are objected to because the sectional cross-hatching of reference numerals 126 (Figure 1), 113 (Figures 1 and 2), and 114 (Figures 1 and 2) is incorrect. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 2852

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

3. Claims 1-18 are allowed.

Response to Arguments

4. Applicant's arguments filed 2/23/06 have been fully considered but they are not persuasive. Applicant indicates the drawings have been amended in accordance with the comments of the Office action, MPEP §608.02, and 37 C.F.R. §1.84(o). However, the examiner still finds the sectional cross-hatching of reference numerals 113, 114, and 126 (replacement sheets) does not match with the drawings symbols shown in MPEP §608.02. The sectional cross-hatching used in the replacement sheets indicates a metallic material, which is different from the material described in the specification. See section IX of MPEP §608.02 for more details.
